Two Brothers Records presents, "My Frame Of Mind", the debut of R&B recording artist, Mona J. Fresh from the Mighty Midwest, Mona J. is a soulful songstress, with an awesome "new classic soul" sound. With the production talents of "J", and the writings of "J"'s partner, Mr. Richard G. Kelly, this project is bound for success!! So who is Mona J.? She's a lovely "twenty-something", self-liberated lady of the new millenium, with a saucy attitude that you will come to love. She reminds one of Ashanti, but with a little more maturity. She has a certain yearning in her voice that makes you feel the pain in a track like, "Love Has No Meaning", or the wanting in "Give Me That!" This CD covers a lot of emotions, and Mona delivers!! What do her producers say?... "Buy it"!!! Why? "Because it's a good record". What makes it so good? "J": "We're trying to bring back real songs, and real instrumentation, we're trying to tell real stories with this music". Mr. Kelly adds, "Nothing against today's music, but we'd like to mix yesterday's soul with today's technology". This CD is definately one to add to your collection.
