Musical explorations, journeys and adventures 5 MP3 Songs in this album (19:50) ! Related styles:

ELECTRONIC: Experimental, ELECTRONIC: Ambient People who are interested in Lamb Decoder Ring should consider this download. Details: Being continually inspired by the people, art, music, and generally the world I come into contact with one way or another, my music often starts with a free improvisation, a feeling or a tune or rhythm that springs from somewhere, often from the acoustic guitar or bass guitar (but sometimes from others instruments in my growing collection). Other elements/sounds/instruments are experimented, jammed with and incorporated and arranged with a focus on exploring what comes up in the song construction process. More to come.
