Lunar Strategies is a tribute to the classic Drum and Bass sounds that inspired so many from 96-98. Noah's churning beats and tense atmospheres toast the possibilities of a past era with gritty dance floor nightscapes for nostalgic junglists. 8 MP3 Songs ELECTRONIC: Drum 'n Bass/Jungle, ELECTRONIC: Breakbeat/Breaks Details: The album includes the tracks FunkJungle, Force, and DB&J: *FunkJungle* sets the urban lounge mood by blending funky-porn wah guitars and high tempo breakbeats. Keyboards by Jordan of the funk soul band Five Point Plan. (170 bpm) *Force* is a head-turner, it takes the "granular synthesis" sound to its limit and everyone's headspace with it. This eerie atmosphere works well for bridging two tracks of different tempos or adding an edge to the mix. (Ambient) *DB&J* is a gritty nightscape that heats up hot at minute 2:20 and pumps the dance floor with dirty lows. (170 bpm) The vinyl release of these tracks is also available at ListenLabsalong with additional releases.
