Smooth-rocking political satire at its best. Hillarious lyrics about a twin personality somewhere in the Middle East. 6 MP3 Songs ROCK: 70's Rock, ROCK: Classic Rock Details: Finally, a song about that mystic split personality MR. SHARAFAT. Political, satirical, funny and with a great la la la la chorus. Orange is back with a song that is odd and remarkable, but still very recognisable. Lyrically they walk a fine line between a commercial hook and a political statement. Do you want to hear something different? Try an orange! This is not an ordinary album. This is a singles compilation. This is Orange's latest single but comes in a package of 3 singles. So it's 6 great songs together with a lyric sheet and an autograph by the artist himself.
