Spirit songs in traditional Native American style. No electronically created "nature " sounds or artificial instrumentation, just the magnificent voices of his native flutes. Very relaxing. 10 MP3 Songs WORLD: Native American, SPIRITUAL: Hymns Details: Robert Windpony plays his spirit songs in traditional Native American style. No electronically created "nature " sounds or artificial instrumentation. Robert plays Woodlands, Plains, and Lakota style flutes in the keys of low A to high C. Robert writes song/instruction books for 6 hole and 5 hole flutes and designs his windpony flutes in various soft, hard, and exotic woods. When Robert records or performs in concert, he plays each song differently each time. Robert feels that his playing is guided by spirit and that his flute playing gives voice to his spirit songs. Robert divides his time between the deserts, high plateaus and mountains of the southwest and his journeys are the foundation of his music.
