His voice is clear and haunting, his delivery is honest and unflinching. Unlike the all-too-common introverted songwriter Stuart's songs tell the hard stories many of us know, but few give voice to. A troubadour has a specific job to do -- and Stuart knows how to do that job." -- Jim Infantino "...Stuart Ferguson writes and performs a collection of stunning, heartfelt songs on his album Shackles Ties. He's an excellent guitar player and fine singer who demonstrates an amazing ability for capturing life's unending moments in song. And although his compositions seem to have an underlying current of sadness, there is a strong sense of hope derived from Ferguson's acute observations. You won't find any filler on Ferguson's album either. As with many folk singers, after three or four songs, you get the message. All eleven songs on Shackles Ties are masterfully crafted and performed..." -- Metronome Magazine (May 2008) Stuart Ferguson is an exciting voice on Boston's thriving acoustic music scene.
