Affiliate Paymaster Heres A Quick And Easy Software Tool That Will Help You Pay Your Own Affiliates Every Month. Affiliate Paymaster is a brand new, easy to use Windows tool which automates making these payments for you, saving you time and effort, while reducing the chances of making expensive mistakes. Just take the list of payments generated by your affiliate script and paste it into the box on the software. Enter the name of your affiliate program and click the button. Affiliate Paymaster will instantly show a payment page, for each payment to be made, the page shows details of the payment and a Paypal pay now button. To make your payments, just click on each Paypal button in turn, causing a web browser window to open at Paypalwith all the payment details already set up. Just enter your Paypal password, click the confirm button to make the payment, then close the web browser window to move onto the next one. As each payment is made, a red tick appears next to it, ensuring that you do not accidentally pay someone twice. Your entire payment run is completed in a matter of minutes, making the whole process quick and painless. Affiliate Paymaster is compatible with any affiliate script or system which creates payment data separated by commas, tabs or spaces and it doesnt care what order the data is in (it will sort it out automatically). This means that it will almost certainly work with whatever script or system you are using. This simple software can save you so much time, effort and hassle, not to mention substantially reducing the scope for costly errors.
