

Erythropoietins, Erythropoietic Factors, And Erythropoiesis

[DOWNLOAD HERE](#)

1;Contents;6 2;List of contributors;8 3;Preface to the first edition;10 4;Preface to the second edition;13 5;Abbreviations;14 6;Background;18 6.1;Erythropoiesis: an overview;19 6.1.1;Normal erythropoiesis;19 6.1.2;Erythropoietin;23 6.1.3;Abnormal erythropoiesis;27 6.1.4;A bright horizon or dark clouds?;28 6.1.5;References;30 6.2;Regulation of endogenous erythropoietin production;35 6.2.1;Hypoxic regulation of erythropoietin;35 6.2.2;Renal oxygenation and erythropoietin;36 6.2.3;cis-acting regulatory elements of the erythropoietin gene;37 6.2.4;EPO a paradigm for widespread hypoxic gene regulation;40 6.2.5;Hypoxia inducible-factor (HIF);42 6.2.6;Differential functions of the HIF isoforms;43 6.2.7;Regulation of HIF by oxygen;45 6.2.8;Von Hippel-Lindau disease;48 6.2.9;Integration of hypoxic, metabolic, and redox signals;49 6.2.10;Renal anaemia and erythropoietin regulation;50 6.2.11;Pharmacologic manipulation of the HIF response;51 6.2.12;Summary;52 6.2.13;References;52 6.3;Biology of erythropoietin;57 6.3.1;Introduction;57 6.3.2;Control of EPO production;58 6.3.3;Erythropoiesis;59 6.3.4;Assays;64 6.3.5;Interaction with iron;68 6.3.6;Rationale for rHuEPO treatment in disease;69 6.3.7;References;72 6.4;Erythropoiesis genetic abnormalities;77 6.4.1;Introduction;77 6.4.2;Erythropoiesis;77 6.4.3;Polycythemias;78 6.4.4;Anemias;85 6.4.5;Conclusion;87 6.4.6;References;87 7;Erythropoiesis-stimulating agents;91 7.1;Studies of erythropoiesis and the discovery and cloning of recombinant human erythropoietin;92 7.1.1;Introduction;92 7.1.2;Early studies in erythropoiesis;93 7.1.3;The role of kidney and bone marrow in erythropoiesis;94 7.1.4;Isolation of EPO from urine;95 7.1.5;Cloning of the EPO gene;95 7.1.6;Expression of the EPO gene;97 7.1.7;Discussion;97 7.1.8;References;98 7.2;Commercial production of recombinant erythropoietins;101 7.2.1;Introduction;101 7.2.2;Cell line development;101 7.2.3;Cell bank;103 7.2.4;Cell culture process;105 7.2.5;Recovery and purification of erythropoietin;112 7.2.6;Dosage form (drug product) manufacturing;115 7.2.7;References;118 7.3;Biosimilar epoetins;119 7.3.1;Introduction;119 7.3.2;Immunogenicity of proteins;120 7.3.3;Consequences of antibodies;121 7.3.4;The biosimilars assessed by the EMEA;122 7.3.5;Conclusions;125 7.3.6;References;126 7.4;New molecules and

formulations;129 7.4.1;Introduction;129 7.4.2;Considerations of new formulations and drug entities;131 7.4.3;Erythropoiesis-stimulating agents;132 7.4.4;Conclusions;148 7.4.5;References;149 8;Erythropoietin receptor;155 8.1;Structural basis for the signal transduction of erythropoietin;156 8.1.1;Introduction;156 8.1.2;Conclusion;165 8.1.3;References;165 8.2;Intracellular signaling by the erythropoietin receptor;167 8.2.1;Introduction;167 8.2.2;EPOR-activated STAT5 signaling;168 8.2.3;The role of STAT5 in the erythropoietic stress response;173 8.2.4;EPOR-stimulated PI3-kinase/AKT signaling;173 8.2.5;Signaling by activated AKT (PKB) protein kinase;174 8.2.6;EPOR-stimulation of RAS/MAPK pathways;177 8.2.7;Negative regulators of EPO signaling;179 8.2.8;Unresolved issues;181 8.2.9;References;182 8.3;Mechanism of erythropoietin receptor activation;187 8.3.1;Introduction;187 8.3.2;Functional challenges to EPOR from the unique features of the red blood cell compartment;187 8.3.3;EPOR is activated as a dimer;196 8.3.4;Dimer reorientation in EPO-induced EPOR activation;198 8.3.5;Preformed EPOR dimers are required for oncogenic signaling by the JAK2 V617F in polycythemia vera;203 8.3.6;Conclusion;204 8.3.7;References;205 8.3.8;Clinical utility;209 8.4;Pharmacokinetics of erythropoiesis-stimulating agents;210 8.4.1;Introduction;210 8.4.2;Mechanism of action;211 8.4.3;Regulation of erythropoietin;212 8.4.4;Pharmacokinetics;213 8.4.5;Summary;227 8.4.6;References;227 8.5;Use of erythropoietic stimulating agents in the setting of renal disease;235 8.5.1;Introduct EAN/ISBN : 9783764386986 Publisher(s): Birkhuser Discussed keywords: Arzneitherapie, Erythropoietin Format: ePub/PDF Author(s): Elliott, Steven G. - Foote, MaryAnn - Molineux, Graham
