[DOWNLOAD HERE](#)

13 songs of dark Americana featuring themes of unrequited love, last wishes, lost souls and finding the sun through the clouds. 13 MP3 Songs COUNTRY: Country Folk, FOLK: Folk Blues Details: I don't know if I was born in the wrong place at the wrong time but the music that really speaks to me was written ages go by folks who lived every word of their songs. Woody Guthrie, Hank Williams, Skip James, Rev. Gary Davis: These people didn't just play you a song; they offered you a quick peek at their soul. And that's what I'm offering, too. Most times those peeks are dark. Other times they're optimistic. But that's me - a work in progress who's proud of the fact that I'll always be a little rough around the edges.
