

Mp3 Cirkestra - Pop: Quirky

[DOWNLOAD HERE](#)

An eclectic riot of original circus music. 7 MP3 Songs POP: Quirky, WORLD: World Traditions Details: "This isn't your fancy-schmancy Cirque du Soleil cabaret circus of pretentious mimes doing interpretive dance with zebras, this is in your face, hairy carnival barker, sledgehammer test of strength out front circus, the zany escapism that begat the idea of circus is present and under the spotlight in the center ring on Cirkestra." -C.D. Di Guardia, Performer Magazine "It has been many decades since American circus has recognized the importance of it's live music. In this recording, Peter Bufano and Cirkestra breathe life into one of our country's most important folk art traditions. Peter Bufano has lived in many worlds. He is a clown, a musician, a juggler, a composer, and at times all four. He has traveled the musical world of India, clowned in Ringling Brothers and Barnum Bailey Circus, made contributions to both Hollywood movies and Times Square variety shows. His music reflects it's heritage from the voice of the penniless traveler, Roma, gypsy, nomad, to the driving sounds of American pop culture. It rides a delicate balance between slapstick and sentiment, lyricism and angular whimsy. It's a refreshing experience to have circus music that neither imitates the ethereal audio wanderings of so many present day shows, nor accepts the vanilla pop standards of contemporary sounds. As the band plays on, I encourage you to close your eyes, smell the popcorn, and picture the tent, the circus ring, the aerialist, the clown, the juggler, and the ringmaster all presenting the grandest spectacle." -Keith Nelson Co-Founder Bindlestiff Family Cirkus Featuring: Peter Bufano: Accordion and Piano Kathe Hostetter: Little fiddle and middle fiddle Michael Tuttle: Bass Fiddle Robert Q. Rudin: Fiddlesticks Additional Musicians: Ricardo Frota Skye Waggoner Pat Donaher Executive Producers: Abraham Sussman, David Bufano Producer: Peter Bufano Audio Engineer: Scott C. Martin Consulting Engineer: Fred Meuller Art: Greg Stadnyk Editor: Alison Pereto
