Old photos, old memories, old promises, old stuff, new love, new children, new hopes, new stuff. Trying to escape we are drawn back in time and again, to the complex relationships that we call family. Not just the family into which we are born and marry, but also the family we create for ourselves out of those powerful friendships that seem somehow predestined. Dan Hazlett's fourth CD, "Family Album", is an exploration and celebration of these most important relationships at times humorous, warm and most often touching. The CD is an entirely acoustic production featuring Hazlett's rich, warm voice, skillful acoustic guitar work and multi-instrumental performances on trumpet, harmonica and percussion. Featured guests on the CD are folk music greats David Roth, Johnsmith and David Barrett.
