

## Mp3 Eke - Left Side Of The River

[DOWNLOAD HERE](#)

EKe (Eric Ketzer experiment), has created a styled dubbed Acid-Folk-n-Roll, many layers and much energy. 14 MP3 Songs ROCK: Psychedelic, ROCK: Roots Rock Details: ...Another late addition was Eric Ketzer and his latest group project, the experiment. The Eric Ketzer experiment [EKe] skates the boundaries of jam band territory but with a distinct non-jam edge. Eric's voice generally waivers between Jon Popper and Dave Matthews-in a non-creepy way, though-and his lyrics are pure and simple, poetry. The band is a tight conglomerate of seasoned professionals, looking to expand their and our musical horizons (and minds). --Darren Tracy, Flush Magazine

Entering their 2nd year, EKe finds itself with a different look and modified sound. Depending on the day of the week, EKe could be a 3, 4, or 5 piece. What remains constant with this band is its solid song-oriented foundation, tight live performances and inability to conform to any particular genre. Tunes like "Desolation Angel" will blow you away with mature alliterations to Kerouac and a thick garage-esque guitar, where as "Railroad Affair" twangs with alt-country sensibility and "Sex with Saturn" tells the wah ladened of interplanetary romance. Since forming in January of 2002, EKe has garnered much media exposure. They are listed as a River Home Grown Artist and have had their tracks spun on 101.1 the River. They have also been played on KDHX (88.1), and 93x. They were featured on the KSDK's (NBC Channel 5), Show Me St. Louis Summer Concert Series; O'Fallon's, Acoustic Bean on Channel 21, and many episodes of Mid Coast Mania, which is aired on Fox Channel 2. EKe's biggest accomplishment, other than developing a loving fan base, was making it to the FINAL FIVE in the Daily Buzz's (WB) "Best Bands you are not Listening To" Contest, a national contest looking for the best unsigned bands in America. EKe has proven that the experiment is ever evolving and the acid-folk-n-roll rolls on...
