

Mp3 Lucy Tiffin - Under The Covers

[DOWNLOAD HERE](#)

Under the covers is your first love. Innocent and sweet and just that little bit sexy. An ethereal pop sound with an injection of 80's 8 MP3 Songs POP: with Electronic Production, EASY LISTENING: Love Songs Details: Lucy Tiffin takes us on a journey through true love and heartbreak with her long awaited debut album, Under the Covers. A collection of songs written by the woman herself, which have been described by family and friends as haunting and infectious. Etheric pop which will have you humming all day and most probably in your sleep. An innocent yet saucy debut. Definitely an album for hopeless romantics. Her voice has been compared with the likes of Cara Dillon, Charlotte Church and even the early Madonna! Lucy got her first piano when she was six years old and has been taking lessons ever since. Although she was a singer from a very early age, Lucy did not take vocal lessons until she started college. Her teacher, Ms Debbie Eveleigh specialised in Opera and its thanks to her that Lucy can now sing up to five octaves. Lucys first studio experience was at fifteen years old, a year after she had written her first song, Nightmare. She recorded this and another called Hes the One, and had 200 copies of the demo made. She was sold out in three weeks. Whilst at college, studying performing arts and Admin skills, Lucy met a talented Guitarist and producer named Cameron Strife (see his website Cameronstrifeand listen to his album, expressions) who became a very good friend. They started a project called Say it with Strings which was an album consisting of Nightmare, Here, Just good friends, Watch me, Summer Rain and Something More. Lucy produced the backing of the songs from a computer programme called Q-base and Cameron did his thing on the guitar. He also mixed the album from the Studio at the college. This demo sold very quickly too. The demo consisting Under the Covers and a revamped Hes the one, was produced a few years later with her Piano teacher, Mr Steve Ball, in his home studio. The idea to merge all these three demos came when Lucy realised she could make her

music known via the internet and that's when she found CDbaby. Under the Covers was born. Say it with strings found its way onto Turkish Radio thanks to a friend and into the hands of the Cheeky Girls when she met them at a works do at Lords Cricket Ground in 2005, (Lucy works as an admin assistant for Dorton House blind school in Kent UK). She sang Under the Covers, live on radio as part of a Guinness world record and received many calls from listeners, complimenting her on her beautiful voice and asking where she performed live! Lucy has also performed in three Professional Operas with AQUARIUM theatrical company and in the summer of 98; was Lead Flying Monkey in a summer production of The Whiz, which was managed by Sylvia Youngs stage school in Kent (a very reputable school). The venue was the Orchard Theatre, Dartford, Kent (supposedly Mick Jagger's hometown). Lucy sang for Gloria Huniford, the Cheeky Girls and the Duchess of Gloucester including 300 dignitaries supporting Dorton House School for the Blind where she works. Lucy has performed to audiences larger than three hundred on numerous occasions. She tries to perform as much as possible, be it acting or singing, although, performing her own music, is where her passion lies and she is now currently preparing to perform in venues around her hometown. Influences: Madonna, Earth Wind and Fire, the Average White Band, The Little River Band, Cara Dillon, Guns Roses, the Rolling Stones, Aerosmith, Classical and world music

Anyone for Tiffin? Interested in booking her for a gig? You can email her on Singingloud20@yahoo or CDbaby.com/lucytiffin/ If you'd like to be kept up to date about Lucy Tiffins music and live shows, simply send an e mail to phoenix1982skt@yahoo with the word subscribe in the subject line and you'll be signed up for her newsletter!"
