An underground sound with an underground attitude. 12 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, WORLD: Asian Details: You've found the CD. NOW LET THE RETALIATION BEGIN. Me1st Entertainment is back...and with a whole new CD that will blow you away! This time, our friend R.E.V from the Bay area of California is spotlighted as the premiere artist to take Indian music to a whole new level! "R.E.V. stands for Retaliation of Enemy Vocabulary," says the album's producer, Shoney. "After the release and success of the first album, I received a lot of criticism from many other Indian artists that criticized the label with accusations of going mainstream as well as swaying away from our loyal fans underground. After listening to the demo of a guy named Vishal from the Bay area, I knew he was the perfect artist to revitalize the Indian music scene and shut these people up. It was time to go back into the studio to do what Me1st does best; retaliate." (Hence his name, R.E.V.) Shoney concludes, "R.E.V. will hit the Indian music scene with an intensity that no one else has done before, as his insight on anything and everything will captivate even the most skeptic listener. Brown, black or white, no matter what culture or skin color you have, R.E.V.'s job is to have you associate your life with his lyrics." While the others came and disappeared, Me1st never left. What started as a small record label from California four years ago has now become one of the most popular names in the Indian hip-hop underground music world, and R.E.V. reminds us why. The CD boasts of its "culturally unique" tracks that made Me1st famous and also includes guest appearances by Kanwar as well as the introduction of R.E.V.'s UC San Diego colleague and lyrical partner in crime, Akshay. Please note: This album contains explicit lyrics and is not intended for the sale of minors under the age of 18 in the United States. The release date and availability of a clean version has not yet been set by its producer. Distributors: Please note that track #10 "It wasn't me" is currently banned from radio airplay in four countries including certain parts of India and Singapore for

its mature content and lyrics. Contact the label @ Me1stEntertainment@hotmail.com.
