Exciting Country Pop with Attitude and a soft loving side too. 14 MP3 Songs COUNTRY: Country Rock, COUNTRY: Country Pop Details: Hi! Im Sharon Elaine. I was born Nov. 30th 1974 and raised in the quaint, little town of Palmerton, PA. I started singing in front of the crowd when I was 4 years old. (My mom says I would sing myself to sleep at night and hum to myself all day long - I think I got that from her) I sang in school plays, church choir, High School choir, and weddings, even funerals while growing up. I started singing in weddings when I was 12. My favorite wedding songs come from Celine Dion, Martina McBride Shania Twain. I grew up with country music all my life. My father is a pastor and we always had Country Gospel music groups playing at our church but I ran away from country music for far too many years that Id rather not count. I turned to top 40 music during my teen years and my early 20s but fortunately, found my roots again and came to my senses. I fell in love and got married at 17 and then became a mom at 21, so I put my dream on hold to raise a family. But when I placed 2nd in a singing contest in The Trump Plaza, Atlantic City in 1999, that rekindled my drive to be a Star on the Big stage. Ive sung our National Anthem for Sports Fest in Allentown PA in 2001, 2002 2003. Ive sung for Company Conventions with audiences ranging from 300 to 65,000 people. I continue to sing every chance I get for weddings, graduations, and funerals. In Feb 2005, I met Steve at OmniSound Studios in Nashville, TN. He liked my voice and decided to help me pick songs that were right for me. I returned to Nashville in Dec. 2005 to record 4 of these songs. When everyone fell in love with them, I went back in Feb 2006 to finish the rest of the album. My latest album Maybe features 14 songs that I fell in love with, songs that I feel deep down inside and that paint a picture of true-life stories. I want my music to tell the story and express the feelings that we all feel on a daily basis. My passion is to get to know you and who you are then put it to music and share it with others that feel the same way so we can all relate to one another.

This album isnt only about me. Its about you, too. We all go through the same things in life, though perhaps at different times. My prayer is that God will touch your life in a way that only He can. When you do make it to one of my shows, WATCH OUT! We like to throw stuff into the crowd. At my album release party, my staff threw rubber rocks into the crowd during If Your Love Was A Rock. That was FUN! We also blew Lip shaped balloons into the crowd at the end of Kiss Me Quick. So we like to have fun!!!! That is what Im about. FUN FUN FUN!!! I hope you enjoy my album. I hope you laugh, cry, love and share every emotion you have with someone today! Love, Sharon Elaine P.S. I still sing myself to sleep at night only now I envision being in front of thousands of people just like you. I cant wait to meet you!
