

Mp3 Vince Pizzolatto The Drum Prophet - After Sunday

[DOWNLOAD HERE](#)

Soundtrack Music that makes you move to and from your final destination 9 MP3 Songs ELECTRONIC: Techno, NEW AGE: Ambient Details: Since the age of seven, Vince has always had a deep love for music and started playing percussion. Vince's first professional performance was with Bob Crain at KnottsBerry Farm, at the age of eleven. Soon after, he started playing professionally in Orange and Los Angeles county. When he was seventeen, he became a christian and started playing in several christian bands. For fourteen years, Vince played at the Calvary Chapel in Dana Point California as a professional percussionist in the worship band with Rick Founds. His passion grew into writing and composing music and designing an instrument that can play a full band through an electronic drum set. Having been encouraged by Rodrigo Rodriguez a well renowned guitarist and Rick Munchow the worship leader at Saddle Back Valley Church, Vince has now come out with an album and is playing throughout the United States. Vince contributes all his talents and all his knowledge to Jesus Christ who has given him all his abilities. The unique thing about the way this album was done is that Vince played all the instruments through his drumset in real time, controlling everything at the same time.
