Asleep in the Sea tempers their crunch'n'soar with some ramshackle jangle and seemingly off-the-cuff vocal delivery 7 MP3 Songs in this album (18:52) ! Related styles: POP: Quirky, ROCK: Punk People who are interested in Weezer The Flaming Lips Deerhoof The Unicorns should consider this download.

Details: Owen Evans and Tom Filardo's voices sound clear, strong, and smart-assed as ever, and they're up to their usual irreverent antics between -- and, of course, during -- songs. Evans has a melodramatic way of playing his fuzzed-out Moog and making faces at Filardo, who croons while playing a guitar with bunches of fake flowers on the strap... The rest of the set continues like a party, with Kuner stomping around backstage with a tambourine, Evans changing lyrics when Filardo's guitar goes out of tune, and the audience cracking up and snapping photos
