

Computational Neurogenetic Modeling

[DOWNLOAD HERE](#)

1; Dedication; 6 2; Preface; 7 3; Table of Contents; 9 4; 1 Computational Neurogenetic Modeling (CNGM): A Brief Introduction; 13 4.1; 1.1 Motivation - The Evolving Brain; 13 4.2; 1.2 Computational Models of the Brain; 16 4.3; 1.3 Brain-Gene Data, Information and Knowledge; 18 4.4; 1.4 CNGM: How to Integrate Neuronal and Gene Dynamics?; 24 4.5; 1.5 What Computational Methods to Use for CNGM?; 26 4.6; 1.6 About the Book; 27 4.7; 1.7 Summary; 28 5; 2 Organization and Functions of the Brain; 29 5.1; 2.1 Methods of Brain Study; 30 5.2; 2.2 Overall Organization of the Brain and Motor Control; 35 5.3; 2.3 Learning and Memory; 37 5.4; 2.4 Language and Other Cognitive Functions; 41 5.4.1; 2.4.1 Innate or Learned?; 41 5.4.2; 2.4.2 Neural Basis of Language; 42 5.4.3; 2.4.3 Evolution of Language, Thinking and the Language Gene; 45 5.5; 2.5 Neural Representation of Information; 48 5.6; 2.6 Perception; 49 5.7; 2.7 Consciousness; 53 5.7.1; 2.7.1 Neural Correlates of Sensory Awareness; 53 5.7.2; 2.7.2 Neural Correlates of Reflective Consciousness; 56 5.8; 2.8 Summary and Discussion; 61 6; 3 Neuro-Information Processing in the Brain; 65 6.1; 3.1 Generation and Transmission of Signals by Neurons; 65 6.2; 3.2 Learning Takes Place in Synapses: Toward the Smartness Gene; 68 6.3; 3.3 The Role of Spines in Learning; 70 6.4; 3.4 Neocortical Plasticity; 73 6.4.1; 3.4.1 Developmental Cortical Plasticity; 73 6.4.2; 3.4.2 Adult Cortical Plasticity; 76 6.4.3; 3.4.3 Insights into Cortical Plasticity via a Computational Model; 78 6.5; 3.5 Neural Coding: the Brain is Fast, Neurons are Slow; 86 6.5.1; 3.5.1 Ultra-Fast Visual Classification; 86 6.5.2; 3.5.2 Hypotheses About a Neural Code; 89 6.5.2.1; Coding Based on Spike Timing; 89 6.5.2.2; The Rate Code; 89 6.6; 3.6 Summary; 90 7; 4 Artificial Neural Networks (ANN); 93 7.1; 4.1 General Principles; 93 7.2; 4.2 Models of Learning in Connectionist Systems; 96 7.3; 4.3 Unsupervised Learning (Self Organizing Maps - SOM); 105 7.3.1; 4.3.1 The SOM Algorithm; 105 7.3.2; 4.3.2 SOM Output; 107 7.3.2.1; Sample Distribution; 107 7.3.2.2; Clustering Information; 107 7.3.2.3; Visualization of Input Variables; 108 7.3.2.4; Relationship Between Multiple Descriptors; 108 7.3.2.5; The Connection Weights; 108 7.3.2.6; Interpretation by the Fuzzy Set Theory; 109 7.3.3; 4.3.3 SOM for Brain and Gene Data Clustering; 109 7.4; 4.4 Supervised Learning; 110 7.4.1; 4.4.1 Multilayer Perceptron (MLP); 110 7.4.2; 4.4.2 MLP for Brain and Gene Data Classification; 111 7.4.2.1; Example; 111 7.5; 4.5 Spiking Neural Networks

(SNN);114 7.6;4.6 Summary;117 8;5 Evolving Connectionist Systems (ECOS);119 8.1;5.1 Local Learning in ECOS;119 8.2;5.2 Evolving Fuzzy Neural Networks EFuNN;120 8.3;5.3 The Basic EFuNN Algorithm;124 8.4;5.4 DENFIS;128 8.4.1;5.4.1 Dynamic Takagi-Sugeno Fuzzy Inference Engine;140 8.4.2;5.4.2 Fuzzy Rule Set, Rule Insertion and Rule Extraction;141 8.5;5.5 Transductive Reasoning for Personalized Modeling;142 8.5.1;5.5.1 Weighted Data Normalization;144 8.6;5.6 ECOS for Brain and Gene Data Modeling;144 8.6.1;5.6.1 ECOS for EEG Data Modeling, Classification and Signal Transition Rule Extraction;144 8.6.2;5.6.2 ECOS for Gene Expression Profiling;146 8.7;5.7 Summary;148 9;6 Evolutionary Computation for Model and Feature Optimization;149 9.1;6.1 Lifelong Learning and Evolution in Biological Species: Nurture vs. Nature;149 9.2;6.2 Principles of Evolutionary Computation;150 9.3;6.3 Genetic Algorithms;150 9.4;6.4 EC for Model and Parameter Optimization;155 9.4.1;6.4.1 Example;155 9.5;6.5 Summary;158 10;7 Gene/Protein Interactions - Modeling Gene Regulatory Networks (GRN) ;159 10.1;7.1 The Central Dogma of Molecular Biology;159 10.2;7.2 Gene and Protein Expression Data Analysis and Modeling;163 10.2.1;7.2.1 Example;165 10.3;7.3 Modeling Gene/Protein Regulatory Networks (GPRN);167 10.4;7.4 Evolving Connectionist Systems (ECOS) for GRN Modeling;172 10.4.1;7.4.1 General Principles;172 10.4.2;7.4.2 A Case Study on a Small GRN Modeling with the Use of ECOS;173 10.5;7.5 EAN/ISBN : 9780387483559 Publisher(s): Springer, Berlin, Springer US Format: ePub/PDF Author(s): Benuskova, Lubica - Kasabov, Nikola
