

Cultivating A Thoughtful Faith - Maxie Dunnam

A passionate call for theological thinking that challenges our intellect, enriches our faith, kindles our heart, and infuses our daily life. The assumption in much of the church is that theology is an obstacle to a vital, growing faith, not an aid to it. In fact, everyone is a theologian-either a good one or a bad one. So what are the advantages of thinking intentionally about matters of theology and how they can guide, inform, and nourish our faith? What are the components of good thinking and what are some ways we can cultivate it? As the contributors to this volume make clear, theology is for everyday and every person, as all are called to be thoughtful followers of Jesus. They make the case for how a living, thoughtful faith and how learning to think about God can launch your faith and make it powerful and alive. This engaging volume will help lay people, incoming college students, and prospective seminarians understand that vital faith is as much about our mind as it is about a warm heart.
