Earn Easy AdSense Cash By Providing A Valuable Service To Your Visitors On Complete Autopilot

Introducing Favicon Generator Service Script Ebay uses them. Yahoo uses them. Nearly all of the top websites use "favicons" to help enhance their bookmarks. In a massive list of 200+ bookmarks, your link can quickly become forgotten unless you're using a "favicon". A favicon (short for favorites icon), also known as a website icon, shortcut icon, url icon, or bookmark icon is an icon associated with a particular website or webpage. A web designer can create such an icon and install it into a website (or webpage) by several means, and most graphical web browsers will then make use of it. Right here before you is an opportunity to start profiting from the ever growing popularity of favicons, and the request for easy-to-use favicon generators.

- \* 5-minute Install To get the site going, all you need to do is add your AdSense publisher ID, give your site a name and upload the files to your server. They don't come any easier than this.
