Some comments from listeners: "I played your CD during the healings at a [workshop] last week....and did a guided meditation with it in the background! It was wonderful and very healing for all. I plan to use your CD more often. It is conducive to leading healings." - Donna Evans Strauss, former Dean, Year 4, Barbara Brennan School of Healing; former head of the Brennan Integration Practitioner the Supervisor Program; Conscious Parents founder "How thoroughly rewarding the experience was! Although my whole system felt addressed and moved by your healing sound from the beginning. I could very specifically feel each chakra being soothed, stimulated, opened and nourished in turn. What a beautiful gift you have created for all of us who are on a healing journey. Thank you so much." - Carol Renwick, MA Brennan Integration Practitioner teacher at the Barbara Brennan School of Healing To learn more about Bernadette Yao, visit bernadetteyao.com
