Crushing death metal with an ear for melody. 9 MP3 Songs METAL: Death Metal, METAL: 90's Metal
Details: Carnivean came to fruition in the late 1990's. While all the members of Carnivean were actively making music in other creative ventures, a full potential for these four musicians would not be realized until fate brought them together for the inception of what came to be known as Carnivean. All the members come from vast and varied backgrounds. From punk to speed metal, to classical, to death, these four individuals equivocally come together to create a rather unusual style of musical pandemonium. Using crafty time changes, song structures, and incorporating eerie melodies with crushing brutality, Carnivean hopes to lay sonic waste to the musical underground. YOUR EARS WILL BLEED!!
