

Mp3 Epicentre - Fokus

[DOWNLOAD HERE](#)

Mixing the sounds of contemporary and modern pop, experimental and melodic electronica with the roots of both jazz, folk and classical music. 10 MP3 Songs ELECTRONIC: Pop Crossover, ELECTRONIC: Electronica Show all album songs: Fokus Songs Details: Epicentres debut-album Fokus is a mix of pompous and small-scaled songs that are all connected in the same modern electronic and classical music style. Epicentre is a young Danish band that counts six members playing cornet, violin, cello, Rhodes, piano, drums, percussion, bass and several different keyboards and synthesizers. The music is modern electro-acoustic pop interacting with the classical music tradition, the harmonics of jazz and the energy of rock. The Danish lyrics play an important role in the music that is centred on a female lead-vocal, which is accompanied by contrastive male vocals. It is beat-compositions with roots in medieval folk music. Catchy melodies are used focused and tastefully in an epic and adventurous sound-universe with choir, horns and strings, but at the same time in a minimalistic and aesthetically pleasing expression.

GAFFA Music Magazine (DK) Pelle Sonne Lohmann wrote the following about "Fokus": "In genre the pop-passages merge with bombastic periods of classical music, as the music also squint at jazz and folk-music. At occasions the result is intoxicating, and the sometimes-gloomy lyrics are not bad either." "Take for instance the orchestration, that through the record is extremely versatile and overall looking back in time in a generally modern sound-spectre" "Overall the record though is an impressively ambitious one" (Read the whole review (in danish) at: gaffa.dk/anmeldelser/view.php/mreview_id=34697)
