Mp3 Fiction Dog - Bitter Winter

Hard rock influenced by almost everything - runs the gamut from light acoustic textures to full-on ear crushing rock. 18 MP3 Songs ROCK: Hard Rock Details: We cut our teeth playing classic rock and grunge covers, indicative of the times, in the early to mid 1990's, all the while pushing our own stuff. Recorded "fido" in response to playing too many biker bars. We supported our debut disc throughout WI, from Minneapolis to Chicago, from Green Bay to LaCrosse, and of course in our hometown of Wausau. Originating in the northwoods of WI was a big obstacle to overcome, however we wouldn't trade our experience for anything. The conservative, but nurturing atmosphere fostered growth and made us stronger, both collectively as a band and also individually. We still enjoy a prominent and loyal following throughout WI and get together at least once a year to perform as Fiction Dog at the Crawdadathon street dance on the third Saturday of July in Wittenberg, WI.
