Country music with a folk influence done in a very original style. 12 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Country Folk Details: Through out my entire life I had always wanted to create some type of literary work. Wanted to write a book, poem, or most of all country music. At times song melodies or lyrics would come to me but as quickly as they were there they would vanish into space. I decided to try to hold on to some of these inspirations and began carrying a notebook and recorder with me in the pickup truck since my inspirations usually come while driving. The bits and pieces that would become my first country music song - River Of Life - came to me one day while driving home from town. I pulled over and wrote down what had come to me and thus began my first country music song. Had a very difficult time with the first one and wrote a lot more on it in solitude up in the mountains. My daughter Shannon came up with the melody and the chorus for it and finally together we created the first original work that I had ever been a part of creating. From there on other songs came to me. Some of them were good, others not, but most of them had a story behind their creation. When Shannon became pregnant with her second child, she worried about her figure and that she looked fat. I simply could not pass up an opportunity to give her a bad time and aggravated her by calling her Hulga. This eventually evolved into Hulga The Horrible. One evening around the kitchen table the lyrics and melody for the song come to me just like they'd been dropped from the sky. My wife commented that she couldn't see how anyone could stand to have such a horrible bunch of crap like that in their head. I replied that I couldn't stand it either and that was why I had written it down and given it to them because that way it was theirs and it wasn't stuck in my head anymore. When Shannon's baby girl was born she named her Isabella. It was on the night she was born that the first lyrics and melody for the song Isabella came to me. This one took along time to come together completely but as with most things if you just have patience things have a way of

fulfilling themselves. It was later on in this same fateful year that Shannon got mixed up with the wrong crowd, got into drugs, and then into trouble with the law. It was from this tragic series of events that she lost custody of her son and Isabella was taken into the custody of the Department Of Health And Welfare of the state of Idaho. Needless to say it was from this nightmare that the country song Shannon evolved. Seems like at that point my wife and I were living in a nightmare that you just couldn't wake up from. Most every song that's come to me has some sort of story behind it. We have a contracting business and I end up spending part of the year staying in a motel 200 miles from home. As I was reflecting on my feelings for my wife, Louise, one evening in the motel the melody and lyrics for the song Lovin You came to me. Another time sitting in the motel room alone and ready to get some sleep I was listening to the music playing. Suddenly I realized that there was no music playing except in my head and I wrote down the lyrics and thus was born the song Passion Rose. I could ramble on about the stories behind each song for a long time, but I would have to say that this has been one of the most satisfying things that I have ever done. It is just such a rewarding experience to create something - a song - out of nothing that gives one a feeling that is hard to describe. When you finally get a compilation of work put together and people tell you that they like it, that gives one a really good feeling too. Hope that this is just the beginning and that I will be able to put more works together in the future. Journeys Of My Heart Glen McClellan's new all original country music CD
