URBAN/R&B: Rhythm Blues, HIP-HOP/RAP: Hip Hop Details: Atlanta Producer/Soul Music Artist JAHAH (Mamas Only Son) releases new album, The Melting Pot. JAHAH takes his sound where a lot of artists should have taken it years ago!!! He is worlds ahead of the game! I dig this shit! - DJ Rasta Root (Smokin' Needles Records/A Tribe Called Quest) on JAHAH'S latest release, The Melting Pot Atlanta-July 3rd

2007-Acclaimed soul artist JAHAH releases his new album The Melting Pot in the US. The album has already been released in Japan on the label Day-Track (day-track.com). This is his second release in Japan and his 3rd in the US. JAHAH states, I've sold over 10,000 albums in Japan which is pretty good for an independent artist. My goal with The Melting Pot is to build up my fan base and spread my music to a wider audience. JAHAH'S solo career began in earnest after his first solo album, 2000s EAR FOR MUSIC got the attention of OUTKAST with the song Cant Believe. Though the deal with OUTKAST fell through the cracks, JAHAH'S name buzzed around Atlanta has the new kid to watch for. Artist such as Speech (Arrested Development) and Fox Sports enlisted JAHAH for his songs and production skills. JAHAH'S newest album, The Melting Pot provides plenty of funk, R&B, soul and jazz influences. The Melting Pot is what good R&B/Soul music is supposed to sound like. Its 70s Motown with a contemporary feel that most of today's artists can't achieve. JAHAH effortlessly bridges the gap between old school soul music and contemporary R&B with a high caliber of creative energy that runs the stylistic gamut in what's regarded as his hottest album yet. "When they talk about music touching people - THIS is what they are talking about" --DJ A to the L (altrap.com) For more information on JAHAH, please visit his official MySpace page at myspace.com/bz70 or email: [mills\(at\)mamasonlyson.com](mailto:mills@mamasonlyson.com)
