Energetic, melodic rock with top-notch harmonies from the midwest. 10 MP3 Songs ROCK: Modern Rock, ROCK: Progressive Rock Details: Jihad is now Loretta. The name changed on September 14, 2001. You can probably guess why. Everything you need to know about us is on our current website. Reincher Rinchoff is not the best record ever produced. We've improved a lot since then. We've also learned a lot about how to make an album. Quite the sales pitch, huh? I'm not sure when (if ever) this record will be physically back in stock. If you insist on listening, it is soon to be available for download. If you must listen, we recommend Satellite, For the Boyz, Free, and Bigot. Listen to the rest at your own risk. Thanks for taking the trouble to find this stuff. It's flattering that anyone would be interested enough to track down this obscure little record.
