Details: A long time ago, in the frosty North Pole, nine little kittens were born on Christmas Eve at Santa's House. Mrs. Claus found them wrapped in a tiny bundle on her front porch. The mother of the kittens was nowhere to be found. Mrs. Claus brought them in the house and gave them a saucer of milk. The hungry little kittens drank the milk and fell asleep next to the fireplace. At first, the Elves were afraid of the kittens. They thought that they were baby lions. But Mrs. Claus assured the Elves that the kittens were harmless. When Santa came home from his journey delivering toys to all the good children, he was so overjoyed at the sight of the cute little kittens he decided to celebrate by listening to one of his favorite Christmas albums. Then, an amazing thing occurred. The kittens began meowing along with the melodies of the songs that were playing. Now with each toymaking season, they entertain the Elves with their beautiful singing and playful antics. Many people believe this is why the kittens sing so well. And to this day, if you listen carefully outside your door on Christmas Eve, you might hear the sound of the Jingle Cats ringing through the neighborhood as every year, they ride high above the rooftops with Santa in his sleigh. You may find your own kitty singing along. If you look in your kitty's eyes he might wink at you to let you know that he, too, has heard the Jingle Cats. Merry Christmas, everyone.
