A collection of energetic and reflective worship songs that we believe will equip the listener for new levels with God to live this life that is so unpredictable and difficult. 12 MP3 Songs GOSPEL: Contemporary Gospel, POP: Today's Top 40 Details: Latitude Life Center is a progressive, culturally relevant church that is located in Mesa Arizona. We began in August of 2003 with 4 couples and 2 teenagers meeting in our homes with our Senior Pastors, Jared and Kimberlee Dunn. Jared and Kimberlee had just returned from Australia where they attended Hillsong International Leadership College. They came home with a fresh, exciting vision and a lot of energy. Since those first meetings the church has exploded to over 350, in just 2 years. Our ministry is based on what we believe are the 3 core needs of the human heart; acceptance, belonging, and value. Every ministry in the church is geared toward those 3 things. Our worship team has been writing songs that have transformed our congregation. We are seeing people everyday being set free through this music and the ministry here at Latitude. Our heart is for people to get released from the things that hold them down and keep them from becoming all they can be, everything God has meant for them to be. Gods love is amazing and He has big plans for each of us. Latitude is a place of freedom. Our name embraces what we believe as well as who we are in Jesus Christ. According to the Webster Dictionary, the word 'Latitude' means a freedom from restrictions, limitations, regulations, and constraints. In simple terms, we are a church that seeks freedom from legalistic mindsets, and anything else that would limit one's spiritual growth through Christ Jesus. We are church redefined!
