pop/folk/rock with tuneful melodies and big harmonies. 10 MP3 Songs POP: Today's Top 40, ROCK: Acoustic Details: Susan Z digs deep in this rocking CD, filled with "Queen-esque" harmonies, euphonious melodies and remarkable lyrics. "What can I say," she says. "I wrote most of these songs during and after a stormy relationship. No one can take ALL the blame for the mistakes, and I try and express that when I'm writing. I was no saint during that time, and I let the chips 'fall where they may' when the songs spilled out of me." Brilliantly produced by Grammy winning producer/songwriter, Jimi Fischer, "Cautionary Tales" will thrill you and have you singing along with the catchy hooks that Susan created.
