Details: This is Tom's Debut CD. 40 years in the making. A compendium of the music that he grew up with from 60's Soul music, to Country Rock and 3 of his own recent Light Rock releases all which have had their part in helping to form Tom's Memories. Hear the haunting Light Rock sound of " Joe " which was one of his earliest friends who died unexpectedly in 2003. Then listen to the fun sounds of the 60's Soul tune " Baby I need Your Lovin " that was recorded live recently at a jam session with Tom's old singing partner from the 1970's, Bugs Mahoney. Listen to Tom's unique harmonious keyboard style in his especially cool version of " Dreamin Again " by Jim Croce. One of his all time favorites was redone with a Country flavor.
