Patrick Zaffini Shamanelectro :: VIBRACOUSTIC :: Vibracoustic is the psy trance project of swiss psy producers Manjit Jus Lukas Hasler, also known as DJs ABN Hashiva. The live-act was formed in late 2005 with the aim to bring a fresh, new psychedelic sound onto the swiss psytrance scene music that would explore the many directions and emotions of the various psy styles. Within just a few months Vibracoustic began to make a name for themselves in the swiss psy trance scene, with gigs all over the country and in Germany. The creative minds behind Vibracoustic come from international backgrounds and so the young producers felt the need to find a label with a broad worldly view to support them. In the early half of 2006 Vibracoustic was approached by the Bali-based label Shamanelectro, a label known for its cutting-edge trance fashion. With a strong label backing them, the two young producers began preparing their debut album, Dark Skies, released in January 2007.
