

Web Video Wizzard

[DOWNLOAD HERE](#)

VideoWebWizzard is a software tool that allows you to easily and quickly convert videos into web format. Even if you are completely new to computers or just are not good with technology, dont worry! The VideoWebWizzard software has a wizard-like functionality. It literally walks you through the few steps to converting video to website format. VideoWebWizzard converts all the popular video formats and a few, even, that most comparable software programs dont support. VideoWebWizzard supports AVI, WMV, MOV, MPG, FLV, VOB, ASF, and MP4 video formats. VideoWebWizzard converts these video files into a file format called FLV, or Flash Video. Then, after VideoWebWizzard automatically converts your video into Flash format, it generates a small web page with your video on it, complete with a player and controls (play, pause, volume, and so on). Upload this page to your website, and youre done!
