Keep in mind, just as the title states, the goal of this video series is to help you create fast flips, which can run anywhere from a couple hundred or more. There is no guarantee, but this is taken from a proven system that I have used since 2003 and has worked well. Video #2 : Brainstorming: Business Income Model Let me ask you a question. How will your website make money? You need to know this before you create your website, because that is the primary reason why your prospects will buy your website. If you just setup a website and try to sell it without answering the above question, then you may as well say goodbye to your future clients. There are many business models we will look at. All of which are easy to plan ahead and setup. Some may sell more than others, but the key is to test it out for yourself. Video #3 : Researching esearch Research Research. Before you move on, you need to do the proper research. By this I am talking about knowing exactly what sites you are going to create in terms of not only business income model, but content, and what it will look like. You need to know the market, do your keyword research, and ensure that what you are about to spend time on is going to be profitable. Video #4 : Getting the Content and Graphics Once you do the proper brainstorming and research, it is time to start creating content and gathering those graphics. Graphics will help make your content look better, But the question is, should you use PLR Content or create your own content? Where to find article writers? Where do you find graphics to add to your content? This part doesnt have to be complicated, and it is not. In fact, this part can be outsourced easily. Video #5 :

Building a Site that Sells Youve brainstormed, youve researched, and youve got the content. Now its time to take all of that you have done earlier and set it up. In this system, we will be using Wordpress Content Management System, so you can get your sites up and running fast and still make it look good. Video #6 : Website Indexing and SEO Basics Websites that have traffic coming to them or are properly indexed in the search engines, can can sell for more. You see a lot of people tend to just setup websites and sell them. While you can make a couple hundred or more bucks that way, why not do some proper traffic generation while youre at it? Let the site sit for a bit and add it to the establish sites listings. You see...with Wordpress you can do On-Page SEO optimization fairly easily and you will learn that and traffic generation in this video.
