It's pop music, big on melody, real songs with lyrics, feeling and tunes. Guitars, drums, keyboards, samples and vocals. Love it. 11 MP3 Songs POP: New Wave, POP: Beatles-pop Details: If you like melodic pop music and really good songs, then you'll like this CD. I wrote, recorded and produced this CD when I was living in Briagolong, a small country town in Victoria, Australia. I had recently finished working with ex Split Enz and Crowded House keyboard player, Eddie Rayner. Eddie and I recorded two CD's for Warners in Australia. This was a great experience, enabling me to put together this solo CD. Not only was I solo artistically, but I was also a single parent, raising my four year old daughter. Part of the credit for this record must go to the incredibly supportive people I had surrounding me in Briagolong. It was an absolutely magical experience and I think that this is reflected in the music on the CD. I hope that you enjoy this CD. Brian.
