This is a total makeout record. playful,romantic,bittersweet guitar driven indie-pop 6 MP3 Songs POP: Power Pop, ROCK: Psychedelic Details: The Bird Of Danger serves as a warning sign of things to come. It is also an invitation to those wanting to be a part of our world or for us to be a part of theirs. This is our calling card. The EP was recorded mostly in our basement on an 8track. There are 500 copies that exist (even less are available) the packaging is made with love. We hand silkscreened each one under the guidance of Popzero/Typewriter mastermind David Youngblood. The entire project took us about 14 months to complete. This disc is like soooo indie alright! Buy it! Love it! Sleep next to it at night!
