Comic Relief mixed with samples of Ink Poison Entertainment artists (comedy/rap/hip hop) 24 MP3 Songs
SPOKEN WORD: Comedy, HIP HOP/RAP: Rap Details: This album is intended for you to get blown, sit back, and just listen to how we act when there just aint sh.t to do anymore in a days work at the studio. It was about 2am back in the summer of 2004. KlubHouse Entertainment was a smoke free enviroment until Mad One said F.ck It.....Peazy, yall hit that shit in the booth. So we did. 3 hours later, we end up with a really long ass track. We saved it and then the track was forgotten about. 2006 rolls around and Mad happen to look through his f.ckin files and ended up on the floor from laughin his ass off. The first words he heard was Hey, somebodys tickling my twix, and the album idea was born. The idea was to do a reverse album. Instead of having 12 tracks and 5 skits, or whatever, we did the opposite. A skit CD with snibblets of previous and coming soon tracks. Will people actually like this sh.t..... Who gives a f.ck, we love it.
