Music by a complete artist. From Hard core to real hip hop, to chill, to ryder music. This what you need in your sound system. 15 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: Rap Details: Reggie Reynolds has been writing, composing and performing for years with different groups and collaborations. Originally from the Mid-west, his songs vary from commercial rap to gangsta rap to raw hip hop. Reggie's journey started with a group called Kaotic Intentions (KI), a more edgy group that sounded similar to NWA. The five member group became local celebrities around the southern Wisconsin, northern Illinois area. After the group broke up Reggie started a two member group with childhood friend and former KI member DLO called Da Supreme Profits (DSP). DSP released two Eps that distanced them from the hard core gansta rap genre in to more lyrical and conscious hip hop. Fast forwarding to the present, Reggie has completed a solo release that shows his ability to produce as well as to write. While Hot to Def has just dropped, DSP's songs as well KI's are available through CD Baby.
