The is a great mix of Spoken meditations and songs that will give a whole new perspective on the life, words and deeds of Jesus, your friend and the lover of all. 9 MP3 Songs SPOKEN WORD: With Music, SPOKEN WORD: Storytelling Details: You are going to love this album! It is an example of one of the concerts I do:) My concerts are usually a mix of stories, songs, healing, spiritual insights, and fun, and that is the way Jesus wants it! :) Sometimes my band (on Radiant Love album) can make it and they are AWESOME, we recently had a great concert at my parish St. Simon's, but if you could not make it, get this album and you are in! You will be touched, especially if you still see God as that Grandfather God on the big throne in the sky out to get you! "We don't open our heart to let God in, we open our hearts to let God out". God is INSIDE of us, not out somewhere on a throne, or cloud, or whim...God is within! Another insight I talk about is that, "Our God love us unconditionally" What part don't we get about that word..un means un??? There is NOTHING we can do to turn our God away from us, come and learn how Jesus experienced God as utter total LOVE in his life and so can we!! There is nothing we can do to make God stop loving or forgiving us, it is just not in God's nature to do so!!! This album will indeed deepen your relationship with God and give you the closeness you have always desired!!! Come on inside:) You will learn more about how Jesus thinks and loves and how he was able to love us so unconditionally then, now and always! I love the saying from the African Catechism, "Why did God make me? Because he thought I'd like it!!" Are you liking it?? If not, give a listen and see why:) Love and Blessings, and enjoy the journey, it was meant to be so! your Sis' Rebecca:) Bio below... S.
