

Mp3 Stephen R. King - Happy Hour In Deadwood

[DOWNLOAD HERE](#)

Take an unpredictable expedition thru the musical mind of Stephen King. This album is full of so many musical styles it just wont fit into any of the cookie-cutter genres that dominate today's music scene. 15 MP3 Songs in this album (44:08) ! Related styles: EASY LISTENING: Instrumental Pop, ROCK: Instrumental Rock Details: Steve came by his music through no fault of his own it's been crammed into his ears since birth. Mom was musical, all three brothers are musical, but Cab, his dad, was the Maestro. After Berklee Steve continued playing, writing, arranging, recording and teaching and he's still at it! Steve lives in southern New Hampshire with his wife, not far from their daughter, son-in-law and granddaughter, who at this writing is almost three!

Youve heard all these notes before, but not like this! Take an unpredictable expedition thru the musical mind of Stephen King. It wont take long for you to appreciate Steves remarkable ability to orchestrate any ensemble. What is not so obvious, but even more notable, is Steves ability to perform all the necessary parts to perfection. Piano, guitar, bass, its all Steve. Tuba, flute, strings, once again Steves skillful performances will entertain and amuse you. All of Steves up-tempo compositions are built on the primal beats and funky rhythms of drummer, percussionist, and most excellent friend, Lou Trombley. This trip is laced with Stephens up-lifting melodies, distinctive arrangements and excellent playing. So, if youre looking for some good-old-fashioned, kind-a-modern, instrumental, be-bop, country, rock n droll, buy this album. Very Special thanks to Jeremy W. Pierce for his inspiration on Doctors Bag, Wim Koopman at HornForHirefor the very cool saxophone solo on Doctors Bag, and Larry Preston for the nasty guitar work at the very end of The Demo Man.
