T&C is feverishly working on their sophomore release "UNIFIED" for a mid-summer '05 release, which will be a MUST have for any cd collection. Their "Middle of the Road" sound is sure to appeal to all demographics. Rich harmonies, layered arrangements and hooks, that would make "Lazarus" cut a step, are prevalent throughout "TILII", especially on "Eyes On You" and "All All". A refreshing throw back to an era when songs had purpose and meaning. You won't be disappointed with this gem. The Good News never sounded so good! Terrill, Eugene and Dwayn (T.E.D.) are currently touring the States in support of their "TILII" project. Their love for the Lord, fans and one another is what motivates these gents from Florida to continue on. Their junior release "According to T.E.D." is scheduled for a mid-summer '06 release. As you can tell, T&C will be busy on the road and in the studio for many months to come. If you enjoy being in the know, you ought to purchase a T&C original while the getting is good. You won't be disappointed! Looking forward to serving you in a city near you real soon, but until then we appreciate your continued support of our endeavors. God bless.....
