A modern version of those wonderful "concept recordings" from the 60's and 70's when bands used many styles of pop/rock to examine one big idea using superb keyboards, inspirational lyrics, and complex vocal arrangements, each tune being something special 10 MP3 Songs in this album (29:30) ! Related styles: POP: Pop/Rock, ROCK: British Invasion People who are interested in The Moody Blues should consider this download. Details: This CD is The Moody Blues crossed with Jackson Browne and will be enjoyed by anyone who appreciates beautiful melodies, meaningful lyrics, great keyboards, and who loved The Moody Blues' groundbreaking recording "Days of Future Passed" - I intentionally modeled "Hope and Change" on that recording. It's what we used to call a "concept album" - pop/rock songs, based on a single idea. In this case, the concept can be stated, "Learn to accept change and to hope for the future, for each person has a reason to live which they can know and follow to fulfillment." I wrote these songs especially for fellow boomers who are beginning new lives. Of course, anyone of any age who is trying to "roll with the changes" will appreciate this music and these lyrics. The CD also is dominated by my best keyboard work on piano, organ, and synthesizer. A link to my personal website with tons of pics, a bio, samples of music, and much more is at the bottom of the column on the left labeled "Official Website."
