

Algebraic Multiplicity Of Eigenvalues Of Linear Operators

[DOWNLOAD HERE](#)

1;Contents;8 2;Preface;12 3;Part I: Finite-dimensional Classic Spectral Theory;24 3.1;The Jordan Theorem;26 3.1.1;1.1 Basic concepts;26 3.1.2;1.2 The Jordan theorem;31 3.1.3;1.3 The Jordan canonical form;42 3.1.4;1.4 The real canonical form;46 3.1.5;1.5 An example;49 3.1.6;1.6 Exercises;54 3.1.7;1.7 Comments on Chapter 1;58 3.2;Operator Calculus;59 3.2.1;2.1 Norm of a linear operator;60 3.2.2;2.2 Introduction to operator calculus;63 3.2.3;2.3 Resolvent operator. Dunford s integral formula;67 3.2.4;2.4 The spectral mapping theorem;73 3.2.5;2.5 The exponential matrix;75 3.2.6;2.6 An example;78 3.2.7;2.7 Exercises;80 3.2.8;2.8 Comments on Chapter 2;84 3.3;Spectral Projections;85 3.3.1;3.1 Estimating the inverse of a matrix;85 3.3.2;3.2 Vector-valued Laurent series;87 3.3.3;3.3 The eigenvalues are poles of the resolvent;88 3.3.4;3.4 Spectral projections;90 3.3.5;3.5 Exercises;92 3.3.6;3.6 Comments on Chapter 3;94 4;Part II: Algebraic Multiplicities;96 4.1;Algebraic Multiplicity Through Transversalization;103 4.1.1;4.1 Motivating the concept of transversality;104 4.1.2;4.2 The concept of transversal eigenvalue;107 4.1.3;4.3 Algebraic eigenvalues and transversalization;109 4.1.4;4.4 Perturbation from simple eigenvalues;119 4.1.5;4.5 Exercises;123 4.1.6;4.6 Comments on Chapter 4;125 4.2;Algebraic Multiplicity Through Polynomial Factorization;127 4.2.1;5.1 Derived families and factorization;128 4.2.2;5.2 Connections between \cdot and \cdot ;134 4.2.3;5.3 Coincidence of the multiplicities \cdot and \cdot ;138 4.2.4;5.4 A formula for the partial \cdot -multiplicities;141 4.2.5;5.5 Removable singularities;142 4.2.6;5.6 The product formula;143 4.2.7;5.7 Perturbation from simple eigenvalues revisited;150 4.2.8;5.8 Exercises;152 4.2.9;5.9 Comments on Chapter 5;156 4.3;Uniqueness of the Algebraic Multiplicity;158 4.3.1;6.1 Similarity of rank-one projections;160 4.3.2;6.2 Proof of Theorem 6.0.1;161 4.3.3;6.3 Relaxing the regularity requirements;163 4.3.4;6.4 A general uniqueness theorem;166 4.3.5;6.5 Applications. Classical multiplicity formulae;167 4.3.6;6.6 Exercises;170 4.3.7;6.7 Comments on Chapter 6;171 4.4;Algebraic Multiplicity Through Jordan Chains. Smith Form;172 4.4.1;7.1 The concept of Jordan chain;174 4.4.2;7.2 Canonical sets and \cdot -multiplicity;176 4.4.3;7.3 Invariance by continuous families of isomorphisms;180 4.4.4;7.4 Local Smith form for C^8 matrix families;186 4.4.5;7.5 Canonical sets at transversal eigenvalues;190 4.4.6;7.6 Coincidence of the multiplicities \cdot and \cdot ;193 4.4.7;7.7 Labeling the

vectors of the canonical sets;199 4.4.8;7.8 Characterizing the existence of the Smith form;200 4.4.9;7.9 Two illustrative examples;208 4.4.10;7.10 Local equivalence of operator families;212 4.4.11;7.11 Exercises;218 4.4.12;7.12 Comments on Chapter 7;223 4.5;Analytic and Classical Families. Stability;227 4.5.1;8.1 Isolated eigenvalues;228 4.5.2;8.2 The structure of the spectrum;229 4.5.3;8.3 Classic algebraic multiplicity;230 4.5.4;8.4 Stability of the complex algebraic multiplicity;233 4.5.5;8.5 Exercises;238 4.5.6;8.6 Comments on Chapter 8;240 4.6;Algebraic Multiplicity Through Logarithmic Residues;242 4.6.1;9.1 Finite Laurent developments of;243 4.6.2;9.2 The trace operator;246 4.6.3;9.3 The multiplicity through a logarithmic residue;250 4.6.4;9.4 Holomorphic and classical families;254 4.6.5;9.5 Spectral projection;255 4.6.6;9.6 Exercises;258 4.6.7;9.7 Comments on Chapter 9;263 4.7;The Spectral Theorem for Matrix Polynomials;265 4.7.1;10.1 Linearization of a matrix polynomial;266 4.7.2;10.2 Generalized Jordan theorem;268 4.7.3;10.3 Remarks on scalar polynomials;271 4.7.4;10.4 Constructing a basis in the phase space;272 4.7.5;10.5 Exercises;278 4.7.6;10.6 Comments on Chapter 10;279 4.8;Further Developments of the Algebraic Multiplicity;281 4.8.1;11.1 General Fredholm operator families;281 4.8.2;11.2 Meromorphic families;282 4.8.3;11.3 Unbounded operators;283 4.8.4;11 EAN/ISBN : 9783764384012 Publisher(s): Springer, Berlin, Birkhuser Discussed keywords: Eigenwert, Lineare Algebra Format: ePub/PDF Author(s): Lopez-Gomez, J. - Mora-Corral, C.
