Power trio fusion of guitar rock and ska influenced Reggae. The Bastard child of Hendrix Santana and Marley and the Police. 10 MP3 Songs ROCK: Ska, WORLD: Reggae Details: For the past 15 years Mason Vincent has made the New England area his home. As a prolific musician, he has experimented with a multitude of styles and sounds. This sonic warrior has paid his dues in full. With a wailing guitar and gritty lyrics Mason is the spark that ignites the Cannibal Kings. Bob Shanley wandered out of the suburbs of Boston with a Pack of Donkies. A connection was made via a network of Boston artists, Bob with his Soprano'esque looks and funky inclinations fit right into the mix. With a sub sonic vibration that will chill your soul and a hot blast of pure bass thump, Bob was the perfect completion to the Cannibal Kings lineup. What can we say about John DeAscentis...BAM! With sticks large enough to slay a few vampyres John is the master of Time and space. With drumming reminiscent of the big bang this accomplished percussion artist allows the Cabnnibal Kings to reach new levels of sonic krunch. This is music that combines several genres, and delivers the combo with grace and thunder in a grand way. If it's World Beat or Latin, Reggae or Jazz Funk it's always original and extremely all consuming. If you like to dance or rock out or just listen to a good grove, then this is it. Get this CD and see them live.
