URBAN/R&B: R&B Pop Crossover, JAZZ: Smooth Jazz Details: If you ask the question "when was it that you fell in love with music"? EJ Miller would tell you - the very first time he heard it. EJ Miller was surrounded by music from the day he was born. As a young boy in Winston-Salem, NC., he would meet his first love - "Music", listening to his grandfather play the piano while his mother sang in the church choir. At the very tender age of 6, he too sang for the church like his mother. He then went on to sing in his elementary choir where his love for "Music" began to deepen. His Family moved to Cleveland, Ohio when EJ was 8 years old. Still with the love in his heart, he formed his first group at the age of 11. He would then go on to sing in many talent showcases and local clubs. His musical influences where Stevie Wonder, Little Anthony of the Imperials, Smokey Robinson, Eddie Kendricks of the Temptations, Marvin Gaye and the great Ray Charles. In the early 80's EJ moved his young family to California to pursue his dream. He had jams sessions with famous musicians and various bands, like The Doktors and Jeffery Osborne. For over 20 years he has traveled across the nation singing the music of his heart, from Los Angeles to Tampa, Fla.. While pursuing his dream he saw the same love and raw talent in his own son, who would grow up to become a composer/producer known professionally as Cadillac Ant. EJ Miller is a singer/songwriter, composer/producer. He performed in the Stop the Violence - Support N.Y.C. Fest, headlining Snoop Dogg. In recent years he has broadened his skills as an engineer. He executive-produced the CD titled "Bam-J Entertainment Presents - Just in Time the Compilation" featuring young hip-hop artists and hard hitting beats. Now EJ opens a new chapter in his life with the release of his new CD, titled "Late Arrival". The CD is a smooth blend of R&B and jazz. From the first
