Melodic, electric guitar and vocal driven storytelling 7 MP3 Songs POP: with Live-band Production, ROCK: Classic Rock Details: This is the first CD from Phoebe's Dough, comprised of Diane Epstein-Porter and Ken Porter, who hail from Los Angeles and Michigan, respectively. They currently live in San Francisco, where they have resided for the past 15 or so years. As with their second outing "Angus Circle," "Draco Way" weaves intimate portraits and observations of life's beautiful, if sometimes fragmented, tale, informed by strong songwriting and a Detroit-rock- meets-New York-vibe guitar driven urgency and pulse, coated with a California dream-landscape sensibility. If you, too, abhor the fake music that is increasingly being marketed to us, you owe it to yourself to give this duo a listen: refreshingly real and original, and possessing a deep love of and respect for music itself, Phoebe's Dough means it; they feel it in their bones, and you will, too!
