

Mp3 Prior Bros. - Bout Time

[DOWNLOAD HERE](#)

ROCKIN, FUNKYASS, SOUTHERN flavored BLUES with Dangerously Edgy FEMALE Vocals 13 MP3 Songs BLUES: Rockin' Blues, COUNTRY: Country Rock Details: The Prior Bros. Band is a collection of REAL musicians from different sides of life. The 2 brothers are John Mark Prior. John writes the music, guitar, bass, 2nd keys, lyrics, produces and engineers. Mark Plays the Drums and percussion. Together John Mark started out doing time in some of the worst venues in the Twins. You gotta start somewhere. Ten years of working our way up and out gives us a certain perspective which helps in the writing. John started taking lessons in 3rd grade and was lucky to have had some great teachers. He has played for several bands over the years and he has always written music but just now has gotten the opportunity to record. Mark actually started out playing the trumpet. It's a good thing he picked up the sticks. TRUST ME. John Mark played for anyone who called. Rock, Country, Swing, it didn't matter what. just so they kept playing. Some call it JOBBIN or WHORIN but its important you keep playing every night. Jenn Usellis hails from Chicago. Her dangerously edgy vocals gives the high powered attack needed for this style of music. Jimmy Steinworth is a world class key player and we are so lucky to get to work with him. The piano and BIG LESLIE work Jimmy did on the CD was perfect. Jimmy is the kind of player that you just turn on the tape and get out of his way. A pro's-pro. There were also two other key players on the CD. Rob "Dirtknapp" Vacanti Bruce "Crash" Bail. Tim Skogen played Bass with Mark in a wedding band and now plays for the best show band in the cities. Steve Cooper plays sax for The Groove Hoggs and can be seen all over America and parts of Europe.
