

Homeopathy: The Great Riddle - Richard Grossinger

[DOWNLOAD HERE](#)

This is a wonderfully succinct book which sets forth the history, essence, and methodology of homeopathy. The book is well organized in 5 major sections. There is a very thorough overview of the precepts and tenets of the practice, its historical origins, a detailed and well-covered biography of Samuel Hahnemann and a review of the politics of the allopathy v. homeopathy debate. It is further embellished with copious annotations, an appendix with an actual case history and a very fine reference for homeopathic resources such as organizations, suppliers and other texts covering a variety of related topics. Call it a perfect Homeopathy 101 text if you will, the author makes a very even-handed presentation of the material, including the politics of medicine as they have evolved in the USA over the past century.
