The first Japanese economic history seen from the perspective of entrepreneurs and local innovative communities. Japan's innovators and entrepreneurs are a real success story against the odds, surviving recession in the 1990s to prosper in today's competitive business environment. Innovation and Entrepreneurship in Japan explores the struggles of entrepreneurs and civic-minded local leaders in fostering innovative activity, and identifies key business lessons for an economy in need of dynamic change. Iбата-Arens offers in-depth analysis of strategy in firms, communities and in local government. Innovation and Entrepreneurship in Japan examines detailed case studies of high-technology manufacturers in Kyoto, Osaka and Tokyo, as well as bio-tech clusters in America - demonstrating far-reaching innovation and competition effects in national institutions, and firms embedded within local and regional institutions.
