

# Modernism, Daily Time And Everyday Life

[DOWNLOAD HERE](#)

An original exploration of modernist authors' fascination with the everyday. Bryony Randall explores the twin concepts of daily time and of everyday life through the writing of several major modernist authors. The book begins with a contextualising chapter on the psychologists William James and Henri Bergson. It goes on to devote chapters to Dorothy Richardson, Gertrude Stein, H. D. and Virginia Woolf. These experimental writers, she argues, reveal everyday life and daily time as rich and strange, not simply a banal backdrop to more important events. Moreover, Randall argues that paying attention to the everyday and daily time can be politically empowering and subversive. The specific social and cultural context of the early twentieth century is one in which the concept of daily time is particularly strongly challenged. By examining Modernism's engagement with or manifestation of this notion of daily time, she reveals a highly original perspective on their concerns and complexities.
